

MTS Rolling Carts

Treston MTS Rolling Carts are durable, configurable mobile workstations designed to transport tools, materials, and equipment throughout manufacturing, assembly, laboratory, and technical environments. Their modular design allows you to create a mobile workstation tailored to your workflow and evolving operational needs.

- Modular slotted uprights support shelves, bin rails, and other MTS upright accessories for customized configurations.
- Heavy-gauge steel construction delivers long-lasting durability in demanding industrial environments.
- Ergonomic guide handle provides comfortable maneuverability for a wide range of users.
- 4" total-lock plate casters ensure smooth mobility and secure positioning when stationary.
- Integrated bottom tray provides convenient storage and transport of tools, parts, and equipment.
- Available in 30" and 36" lengths with a standard 24" depth.
- Available in 42" and 72" heights to accommodate different applications.
- Maximum load capacity of 250 lbs.
