

Lexington Series

The Lexington Series combines everyday comfort, durability, and affordability for industrial and technical work environments. Featuring comfortable upholstered seating and a supportive backrest, these chairs provide a practical seating solution for manufacturing, assembly, laboratories, and other workspaces. Available in standard and static-dissipative ESD versions, the Lexington Series offers three height options and multiple configurations to accommodate a variety of workstation needs.

- Comfortable upholstered seat and back provide reliable support throughout the workday
- Available in desk, mid, and tall heights to accommodate different workstation requirements
- Standard and ESD versions available for different workplace applications
- ESD models provide basic static discharge control through the grounding chain but do not comply with ANSI/ESD STM12.1-2019 standards
- 360° swivel allows freedom of movement and easy access to work areas
- Sturdy 5-leg black nylon base supports up to 300 lbs.
- Choose from mushroom glides, carpet casters (standard models), or hard floor casters
- Mid and tall models feature an 18″ adjustable chrome footring for added support
- Easy, no-tool assembly for quick setup
- Meets ANSI/BIFMA furniture standards and includes a 5-year warranty
