

TRESTON

Perfectly compatible, complete workspace solutions

The best customer support: pre- and post- sales support, tools, and personal sales contact

Environmentally sustainable solutions - Treston products are manufactured in the USA and Finland

50+ years of ergonomic workspace development and manufacturing

WORKSPACES FOR

HAPPIER WORKFACES

**This is our aspiration. This is our promise.
This is what Treston is all about.**

With decades of experience, in depth understanding of ergonomics in industrial environments, unmatched ESD competence and proven LEAN know-how we at Treston are in a unique position to help our customers in keeping their business and people in excellent shape.

Sustainably made

HIGH QUALITY

Treston's high quality and well designed modular products **are made to last**. No disposal means no waste. Modularity also means the solution can be **adjusted and modified** with new accessories for new purposes.

CUTTING
EDGE NEW
PRODUCTS!

-  When the products come to the end of their lifecycle, the metal, plastic, and aluminium parts of our products can be recycled.
-  The energy and water consumption of our factories is constantly monitored, and adverse effects on the environment reduced through operational optimisation.
-  The heat generated by our machinery is used for heating factory premises.
-  The plastic and steel waste generated by us is recycled 100 percent.
-  More and more Treston products have been made out of eco-friendly and sustainable materials. For example, our Kennoset plastic bin products, are made of 100% recycled plastics.

Ergonomics

Improves productivity & well-being

ASK ABOUT OUR
ERGONOMIC
ASSESSMENT
SERVICE TRESTON
ERGOID™

treston.us/ergoID

Benefits of ergonomics to the EMPLOYER

- Improves occupational safety and reduces sickness absences
- Improves employees' performance
- Reduces occupational health care costs
- Increases productivity and efficiency
- Motivates and engages employees

Benefits of ergonomics to the EMPLOYEE

- Improves employees' health and well-being
- Healthy and safe working environments promote the ability to work and also have a positive effect on the ability to function during leisure time
- More satisfaction for your work

Lean Manufacturing

Adds value for the customer

The company and its employees benefit in many ways from a manufacturing process and related workstations that have been set up in accordance with the LEAN philosophy.

- Tools do not get lost
- Work takes less time and effort
- The workplace is safer
- Well-being at work increases
- Lead times are shorter
- Costs decrease due to minimized waste
- Both productivity and production volumes increase

5S Principles for a Clean Workspace

- SORT - Remove items not being used
- SET - Everything in its place
- SHINE - Clean and inspect
- STANDARDIZE - Create guidelines
- SUSTAIN - Keep it up!

FREE E-BOOK: "LEAN thinking perfects production processes"

This e-book will help you understand LEAN philosophy and how Treston, as a manufacturer of technical facilities and ergonomic furniture, can help you with the LEAN thinking to perfect your production processes.

ESD-Compatibility

Improves quality

Elements of a well-managed ESD-protected working area:

- ESD-protected workstations. Attention paid to ESD safe storing, moving and packing.
- Personnel protected with shoes, wrist straps and other needed accessories.
- Staff training, work instructions and quality control.
- Cleanliness of ESD-protected equipment. Dust and dirt insulate.
- Commitment to continuous improvement in static electricity management.

Mobile lab cabinets manufactured in Arizona

Installation Services

Simplify your workspace setup

Treston's installation service provides professional project management services for installation of industrial furniture across the United States and Canada. Designed to streamline your workspace setup, our expert technicians will handle the entire installation process, from start to finish, saving you valuable time and resources.

How to get started:

1. Contact our Treston's inside sales team for a personalized quote and to discuss your installation requirements.
2. Once your Treston workstation order is placed, a dedicated project manager will schedule your installation appointment.
3. Relax and let our expert technicians take care of the rest, ensuring a perfectly assembled workbench ready for immediate use.

You will find all of our assembly videos on our website and our Treston YouTube channel. There is a convenient QR code on our printed assembly instructions for easy viewing during assembly.

Find all of our installation videos on our website!

Custom Solutions

From variations to completely custom-made

Sometimes even highly modular industrial furniture and a large selection of accessories cannot meet all the needs of a diverse and ever-evolving working environment. We can answer customers' specific needs by offering modified versions of our workstations and storage solutions, or by designing a completely tailor-made industrial furniture solution made to the customer's specifications.

Custom solutions can now be delivered from our Arizona manufacturing facility! Contact sales for details.

Typical modifications

1. **Cut-outs and designs** for desktop
2. Different **size**
3. Different **color**
4. Desktop with a specific **ball-roller solution**
5. Specific **accessories**
6. Integration with **a conveyor line**

Treston ErgoID™

AI-assisted ergonomic
assessment service

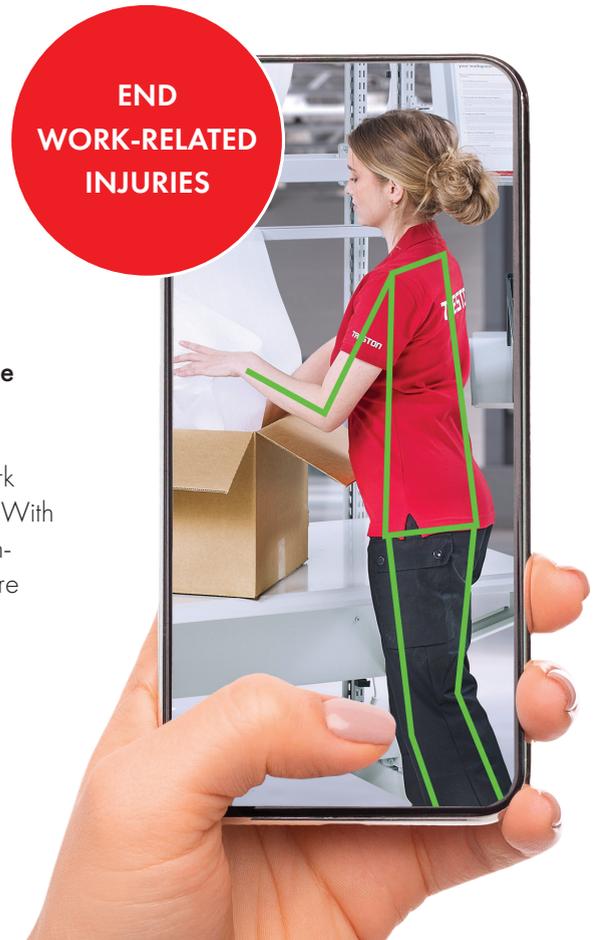

Unlock the true potential of your workspace with Treston ErgoID™, the ultimate ergonomics assessment service.

Utilizing cutting-edge AI computer vision software*, we analyze your work flow to provide in-depth insights into the ergonomics of your environment. With expert recommendations from our ergonomics specialists and virtual or on-site ergonomics consultations, we empower you to create a healthier, more productive workspace.

Discover the perfect assessment package for you among our three levels: Starter, Pro, and Enterprise. Go to our Treston ErgoID™ webshop:
